

## Are you searching for international experts in the automotive industry?

### We offer:

- More than 20 years of knowledge regarding human resource management with a focus on recruitment and executive search
- Professional recruiting methods in search & selection for specialists and executive employees (national and international)
- Excellent references to well-known automotive clients (OEM, supplier, engineering partner)
- Specific sector knowledge through our „Automotive Sector Group“ featuring a transnational team
- Additional specializations with consultants only focused in this area
- Attractive conditions, based on the business environment and on a success-basis

**Get the best team for your company with our help and support!**
